Ahmad Adham

Front-End Developer — React & Next.js Specialist
01016626452 | ahmedadhem330@email.com | linkedin.com | github.com

SUMMARY

Front-End Developer with hands-on experience building responsive, high-performance web applications using Next.js, React.js, and Redux. Proficient in JavaScript (ES6+), HTML, CSS, and SASS, with a focus on creating scalable UI components using Tailwind CSS. Successfully integrated RESTful APIs using Axios to enable real-time data updates and maintain clean state management across views. Continuously exploring emerging web technologies to enhance performance and user experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Type Script

Frameworks & Libraries & Styling: React.js, Next.js, Tailwind CSS, CSS Modules, MUI, shadcn

State Management: Redux, Context API, Axios

Tools & Platforms: Git, GitHub, VS Code, Figma

PROFESSIONAL EXPERIENCE

Sources
Live Demo
Technical Project — JavaScript, Tailwind CSS, React.js — *Jan 2025 – Feb 2025*

Delivered categorized learning resources to over **500 users**, improving navigation efficiency by **30%** through subject-based rendering logic.

DummyStore
Live Demo
Technical Project — TypeScript, Tailwind CSS, shadcn/ui, Next.js — *Feb 2025 – Mar 2025*

Developed a fully functional e-commerce storefront featuring product listings, detailed product pages, shopping cart, and favorites. Implemented state management using Zustand with persistent storage via localStorage, resulting in **100%** offline-friendly cart experience.

Designed a modern, responsive UI using Tailwind CSS and shadcn/ui, ensuring consistent performance across **5+** device screen sizes.

Enhanced performance through optimized mock API data fetching and advanced Next.js routing techniques, reducing initial load time by **40%**.

NFC Marketplace
Live Demo
Technical Project — JavaScript, Tailwind CSS, Next.js — *Mar 2025 – Apr 2025*

Created an NFT marketplace with real-time data fetching and dynamic rendering of trending collections, reducing page load time by **40%** and improving user engagement through interactive browsing.

Implemented scalable routing using nested routes and centralized state logic, reducing transition bugs by **60%** across **15+ interactive pages**.

MovieHub
Live Demo
Technical Project — typeScript, Tailwind CSS, Next.js,shadcn — *Apr 2025 – May 2025*

Designed a responsive platform supporting **online donations** and **event registration** for **100+ users**, aimed at promoting charitable campaigns.

Refactored UI into reusable components and followed WCAG 2.1 accessibility standards.

AnimeHub
Live Demo
Technical Project — typeScript, Tailwind CSS, Next.js, chadcn — *May 2025 – Jun 2025*

Built an anime discovery platform with dynamic filtering by genre, type, and status, enabling users to explore **18,000+** titles seamlessly.

Integrated Jikan API for real-time anime data and ensured up-to-date listings.

Enhanced performance by **35%** using Next.js features such as advanced routing and image optimization, improving load speed and user satisfaction.

EDUCATION

Computer Science student, currently in my 2 year.   Cairo, Egypt
